

Time to Arrive for Surgery

Please arrive promptly for your scheduled procedure.

Our staff will contact you by telephone 1-3 days prior to your surgery to let you know the time of your expected arrival and to review your medical history and pre-operative instructions. We can also address any questions or concerns at that time.

PLEASE CHECK ALL OF YOUR VOICEMAILS **(HOME AND CELL PHONE)**

We call the "best number" that was given to our schedulers at your doctor's office, and sometimes we have to leave a message. Make sure that your physician's office has your most up to date contact information.

If you do NOT receive a call by 3pm the day before your procedure, OR if you need to cancel your procedure, please call your doctor's office or:
